

THE  
FACADE GROUP

## Kenneth Roko AIA

kroko@facadegroup.com

Ken is The Façade Group's in-house roofing, waterproofing and air barrier expert and head of the Hygrothermal Analysis team. As such, he has analyzed the effects of humidity and temperature on wall and roof assemblies throughout the world. He is responsible for project coordination, analysis, detailing, production and construction services and existing buildings performance reporting. Ken's portfolio includes historic preservation projects, exterior restoration, cladding systems, curtain walls, roofing, air barriers, below-grade and horizontal waterproofing systems, and expert witness testimony

Ken is a Building Enclosure Consultant and Principal with over 18 years experience. He has a diverse background—encompassing both architecture and structural engineering. His project experience is equally diverse—ranging from commercial towers to residential towers, public buildings to institutional and historic buildings.

Having earned a degree in Architecture from the New York Institute of Technology and an Architectural Engineering degree from the Pennsylvania State University, Ken has a foundation in both the practical and theoretical aspects of building enclosures and structural systems. He is a member of the AIA, ASHRAE, AAMA, National Roofing Contractors Association (NRCA) and a founding member of the Portland Building Enclosure Council (BEC). Ken is also a member of the Air Barrier Association of America (ABAA) where he sits on both the Terminations and Flashings Committee, and the Air Leakage Testing Committee. Ken is an active part of a team of experts editing and updating the Below-grade Waterproofing, Vegetated Roofs and Roofing sections of the Whole Building Design Guide ([www.wbdg.org](http://www.wbdg.org)) commissioned by the National Institute of Building Sciences (NIBS). He is also an annual guest lecturer on Roofing Systems at the University of Oregon.

### Noted Projects Include:

- ▶ OHSU Knight Cancer Research Building, Portland, OR
