

THE
FACADE GROUP

Shelby Ness

sness@facadegroup.com

Shelby is a Building Enclosure Consultant who has been with The Facade Group for 6 years and has experience with many aspects of the building enclosure from below-grade waterproofing to vertical enclosure systems and roofs.

Shelby is passionate about building greener, more efficient buildings and is helping to push the industry towards a greener, net-zero future.

Shelby has a strong attention to detail which is applied directly to projects and gives clients a sense of security that the building will be air and water tight from below-grade to roof.

She holds two degrees and is fluent in Spanish.
